

SAP Business ByDesign Services and Support™

SAP BUSINESS BYDESIGN SERVICES AND SUPPORT

SAP Business ByDesign brings a new definition of service and support to business applications for midsize companies, providing an affordable, reliable, and flexible solution.

SAP Business ByDesign can be deployed, managed and continuously adapted to your needs without deep IT expertise and at a very low Total Cost of Ownership.

The built-in services and support functions such as 'software configuration' take out IT complexity for you and give you access to knowledge when you need it.

On top of the built-in capabilities, our flexible Go-Live Services provide game-changing reduction of system deployment efforts, further reducing your risk and TCO while simplifying your IT.

But SAP Business ByDesign is even more. You become a member of the SAP Business ByDesign community that enables you to connect with others providing you with ideas how to even get more business value out of SAP Business ByDesign.
